

SINCE 2010

2023 Quick Product Guide

Flexible Lighting Solutions

CAN

This DC-Powered architectural, direct-install unit replaces traditional downlighting.

Smooth, non-glare illumination, available in customizable wattages.

8in., 10in., and 12in. field replaceable 1/2in. extension trim rings are also available for those onsite surprises.

CSP

This SimplyLEDs legacy offering is one of the most versatile retrofit kits available.

From standard field adjustable plates to full custom designed inserts, if you can't quite figure out how to light it, ask about CSP.

Available in 20W, 35W, 40W, 60W, and 90W.

ALD-R

The highest performing custom spec grade retrofit kit available.

The ALD-R replaces the actual glass for optimal dispersion available in Type 3, 4, 5, and Flood.

All ALD-R kits are DLC Premium listed in 3000K, 4000K, & 5000K and available in wattages from 30W up to 300W.

SAM Kit

Stop measuring and start installing. A universal retrofit kit for shoeboxes, wall wash, bell-style & more.

Offered in 40W, 60W, and 80W, the SAM Kit uses the spec grade Type 3, 4, 5, and Flood performance of our legendary ALD-R custom system, but in a no-measure, field trimmable design engineered for scalability on any project.

NSF

CLG

SimplyLEDs flagship luminaire, the CLG, has enjoyed nationwide recognition as a premiere parking garage and highway fixture.

9 available wattages from 40W thru 360W with 3 dispersions.

Available NSF rating for food & beverage install.

HZL

Based on the CLG platform, the certified Class1Div2, Class2Div2 HZL has what it takes to perform in harsh conditions where chemical vapor and flammability is a daily concern.

Available in 80W, 120W, 160W, and 320W with 3 dispersion types.

SENSABLE 2.0

Starting with SensaBLE 2.0 intuitive mesh network lighting control for mobile or desktop is never overwhelming: begin with the system and the control you need.

We designed SensaBLE 2.0 with you in mind, allowing you to customize your energy footprint, reduce kWh over standard photocells by up to 50%, and accurately track and manage your consumption with built-in Measurement and Verification tools, right at your fingertips.

All with no hidden fees and no unexpected costs, only simple purchase pricing and maintenance costs you'll understand from the start. No ibuprofen required!

AVAILABLE, ALL UNITS: CCT, 3000K-5000K; CRI, 70 - 90; VOLTAGE, 120-277V & 277-480V; occ sensor; photocell; custom colors; 10yr warranty (5yr on SAM & SensaBLE 2.0). DLC Premium logo is used with permission. All products and product variations may not be DLC listed or DLC Premium listed, check DLC website at www.designlights.org for listing details.
